Download**

Audio Data Burner OCX
contains all of the features and
functions you need to burn
audio files to your CD, Video

Disc, DVD or Blue Ray Disc.
You can create a single audio file or you can make a complete playlist of audio files from your PC. * New, ease of use (a single form with few parameters to fill) * Simply drag and drop the audio file(s) on the control and burn them with all the data source you want * You can easily export your playlist in text or XML files (XSD) * You can select the

audio quality : VBR, CBR, ABR,
VBR Quick or VBR Slow * It
supports external WAV files too
* You can also add the small
ID3 version 1.1 * You can
choose to burn the file with a
title, a cover or an empty one *
You can choose between a
cover for the file or the regular
default one * It supports the
following audio file formats :
MP3 (MPEG1 Audio Layer 3),
WMA (Microsoft Windows

Media Audio), WAV (Microsoft Wave Format), OGG (Ogg Vorbis) * Audio Data Burner OCX works on a very low level of ASPI, which means it doesn't require a lot of CPU resources (such as a CD Burning application) * You can add up to 4 different data sources at once, with up to 4 parallel tracks * It can burn regular (4.32, 4.75, 4.76, 6.02, 8.00, 8.15, 10.0, 12.5, 14.05, 14.98,

16.00, 16.50, 17.2, 17.40, 19.1, 20.00, 22.05) and High Quality (8.0, 8.5, 9.0, 9.5, 10.0, 10.5, 11.0, 11.5, 12.0, 12.5, 13.0, 13.5, 14.0, 14.5, 15.0, 16.0, 17.0, 18.0) audio formats * You can choose the audio volume from 20 to 100 % (or only on half or high) * You can export the created CD or DVD to ISO or BIN or any other image format you want (such as ISO, CDI, IMG or...) * Audio Data
